

ASSEMBLY TURNS
DOWN PRIMARY

Senate Amendment Was Beaten by Vote of Seventy-Four to Twelve.

THE CONFERENCE

This May Possibly Be the Next Step Taken by the Legislature in the Matter.

(Special to The Gazette.) Madison, Wis., March 31.—Senate amendment to primary election bill providing for submission of all provisions of bill except applying to county and city officers to vote of people at general election, 1904, defeated in assembly today by decisive vote of 74 to 12.

Democratic Stand
Before this vote was taken Coffland, democrat, offered amendment attaching referendum to entire bill. This brought on short debate and was defeated 65 to 22, five stalwarts voting with seventeen democrats present in favor. The democrats voted with the republicans, and five were absent.

Republic Votes
Democrats voted solidly against concurrence in senate amendment, all twelve voting in favor being republicans—Messrs. Hartung, Johnston, Osborne, Ray, Reynolds, Sidor, Shale, Thiesenshusen, Thompson, Valentine, Wallrich, and Willett. Minor senate amendments as to details which had been agreed on were concurred in. Bill now goes back to senate on question of relieving from its amendments. Conference will probably be next step.

Bank Bill

GOVERNOR HAS
ANOTHER VETO

This Time It Is the Bill Regarding County Boards' Authority.

(Special By Scripps-McRae.) Madison, Wis., March 31.—Gov. La Follette sent his third veto to the legislature Monday, expressing disapproval of the North bill, giving county boards authority to appropriate money for soldiers and sailors monuments, and eliminating the present provision of the statutes, which requires the submission of the question of such appropriation to vote of the people. Action on the veto was postponed till a week from Thursday. The primary election bill came up today on the question of concurring in the senate amendment attaching the referendum to all offices except county and city. An amendment to this will be offered in the assembly, including members of the legislature, but exempting state officers and congressmen. Another proposition is to attach the referendum to the entire bill, to be voted on by the people at the April election in 1904.

A similar attachment was served by a local firm of jewelers on the last visit of the duke and duchess to New York. The duchess was Miss Zimmerman of Cincinnati before marriage.

ON COUNTRY'S FUTURE

Great Financier Declares the Outlook Is Most Promising With Prospects for Continuation.

New York, March 31.—J. Pierpont Morgan in an interview unequivocally declared himself to be a bull on the country and its future.

Summing the situation up, not only is there prosperity everywhere, but the promises are of a continuation of that prosperity for a long time to come."

"It seems to me that the general pessimistic talk indulged in not alone in foreign but in local circles is in no sense justified by the facts. It may be true, as some of the captious critics declare, that there are in the market many undigested securities, but ought not the character of these securities to be taken into consideration in a broad or comprehensive view of the situation?"

"To my mind and in my judgment these new securities are essentially sound and stable, and those who have them are in no wise alarmed because of their holdings."

PENNELL MAY
BE MURDERER

Verdict of Judge Murphy in the Burdick Inquest Blames Buffalo Lawyer.

BURDICK'S LIFE

He Was a Loving Father, and a Forgiving, Magnanimous Husband.

(Special By Scripps-McRae.) Buffalo, March 31.—Judge Murphy this morning handed down his findings in the Burdick inquest. He says Burdick came to his death from blows on the head delivered with homicidal intent by a person whose identity is not proven, but if Pennell were alive the evidence adduced would justify the issuance of a warrant for his arrest on the charge of murder.

Law's Version
He says the law presumes a man innocent until he is proven guilty, therefore, he could not render a verdict establishing the identity of Burdick's murderer.

Clears Burdick
Continuing the findings say the inquest failed to disclose one immoral act on Burdick's part. On the contrary it showed him to be a loving father and a forgiving magnanimous husband. Mrs. Payne and Miss Hutchinson, whose names were unfortunately brought into the case, were completely exonerated.

Mrs. Hull
The judge regards the conduct of Mrs. Hull, Burdick's mother-in-law as inconsistent and in need of an explanation.

Mrs. Burdick
In closing Judge Murphy said: "It is our duty to censure Mrs. Burdick, but great as her wrong has been, great is her punishment."

Salt Lake City, Utah, March 31.—Physicians of this city, more particularly those attached to the staff of the Holy Cross Hospital, are at a loss to account for the condition of Miss Bessie Knecht, twenty-two years of age, who for the last twenty-nine days has been asleep. After the first week of her long slumber she was taken from the home of her parents in this city and removed to the hospital where, despite numerous efforts on the part of the physicians in charge to arouse her, her conditions remain unchanged. She lies with closed eyes breathing naturally.

The Sermon

Text, Luke 14:23—"And with one consent they all began to make excuse."

It is not customary for an invitation to a royal feast to go a begging but the improbability of this incident is the very point of it. If men in all probability would not act concerning a worldly feast as these men are represented as acting how very strange it is that that is the very way they do act concerning the invitation to the feast which God has prepared.

Why Was It?

At first thought we are inclined to justify these men. If I prefer looking after my real estate and enjoying my wife's company to attending a party I'd like to know whose business that is but my own? And unless the men were sick it is hard to see what other reasonable excuse they could have had, especially the third one as we do not read that ladies were expected at the feast and might have been considered as a breach of courtesy for a newly married woman to have thus appeared in public.

Now there was something wrong about what these men had done. Indeed they are too complicated, two of them on their business thrills and the third on his success in getting some body to marry him but when these things are anything else stand between a man and his eternal salvation it were better to say, "Good-bye" to them all. Eternity is coming along and the time is short.

Were Merely Excuses

And yet we read that the Master of the house was angry at these men and so there must have been some contempt in their attitude toward his invitation. If the invitation came several days before the feast as invitations usually do and as the narrative implies it did why did these men not send their regrets at once? And why did not the first two arrange for the cultivation of their land and the proving of their oxen at some other time and certainly the third man knew far ahead that the feast would interfere with his honeymoon—unless he was married on short notice. Anyhow they could have cultivated the land and proved the oxen in the morning; they wouldn't run away. Besides after supper in the dark was no time for such things. The simple fact of the matter is—these men did not want to go to the feast and simply used the wife and the real estate as pretexts behind which to hide. They simply didn't want to go and had made up their minds to do as they pleased. It's natural for a man to want to please himself and it always will be as long as he is not controlled by a higher spirit than his own. Man, as long as your mind is fixed in the purpose to do as you please regardless of what is pleasing to God; as long as you are determined to keep control of your own life, refusing to surrender of your will to God, there can be no hope for you, neither in this life nor in the life to come.

Far Happier Homes

Now these men were not hopelessly bad. Plain practical sort of men, I take it, two of them, and the desire of the third to be home with his wife is commendable under most circumstances. It more of the men of Janesville would do as much there would be happier homes I am sure. Some children hardly have time to get acquainted with their fathers in the busy rushing days.

I have heard of one such father who was starting to his office after dinner and who had to punish his little boy to make him go back and not go down town as he was determined to do. And the little fellow came crying back to his mother and said, "Mama, that man that stays at our house slapped me."

Clubb'd to Death

And I expect that if a little more of our women staid in the home and a little less at the circles and the coteries and the clubs it would be better for our homes too. We're being clubb'd to death in these days. And so it is, anyhow, that we hear many men say, "Well, I'm not the worst man in the town. I'm as good as most of your church members; I pay my honest debts and am a moral man in every way and I don't make a hypocrite out of myself by pretending to be what I am not."

Well, my friend, what other men are has nothing to do with what you ought to be, and you may be the most moral man in your city and yet be farther outside the kingdom of

God than the meanest profligate that walks your streets.

When Christ said "Ye must be born again," He was not talking to a thief or a murderer but he was talking to Nicodemus, one of the most moral men in the city of Jerusalem. And yet he told this midnight visitor that with all his goodness he only had a dark and a midnight conception of what it meant to be a really good man and told him that in spite of his morality if he were not born again he could not even see the kingdom of God.

The assault grew out of some recent labor trouble in the foundry.

CITY FATHERS POSTPONE ACTION

PUT OFF FRANCHISE QUESTION TILL NEXT MEETING.

GENERAL BUSINESS DONE

Simply Routine Work Was Accomplished at the Meeting Last Night.

Nothing was done with the application for a franchise last night at the meeting of the council. A good sized audience was present to hear what the council would do in the matter and listen to the arguments advanced by the representatives of the opposing companies. They were disappointed, however, as the highway committee asked for more time and were given until next Monday night.

All Present

Mayor Richardson presided at the meeting and all the aldermen were present except Alderman Hutchinson.

The minutes of the previous meeting were read and approved and the bills for the last two weeks referred to the finance committee.

Report of Committee

The report of the special committee appointed by the mayor to devise a system of books for city purposes was presented and referred to the finance committee. The report recommends a complete change in the system of books now in use and recommends that regular set of double entry books be opened and that all accounts be kept separate instead of running them under the head of the general fund as at present.

This would allow the clerk to run an account with the treasurer for all moneys received and paid out on orders. A trial balance at the end of each month is also asked for.

The application of J. Sheridan and J. Byrne for a transfer of their liquor license to Philip Sheridan and J. Byrne was granted and their bond approved and placed on file. A communication from the library board in regard to the sidewalk and curbing in front of the new building was presented and referred to the highway committee who later asked for more time, which was granted.

Library Board

The library board stated that the building was now ready for occupancy, but they did not wish to move the books until a walk was built on account of dirt being tracked into the building.

Electrician's Report

The report of the city electrician of the number of lights out during the month of March was presented and the clerk was instructed to deduct the amount from the company's bill against the city.

The finance committee reported favorably in the bills presented two weeks ago and also on the amounts due the city officers for salaries during the month of March and the clerk was instructed to draw orders for the same.

The city treasurer was instructed to transfer \$2,308.08 from the Milton avenue special assessment fund to the general fund, and \$417.09 from the Linden avenue fund to the same fund and \$15. to the First ward fund. The mayor was also instructed to borrow \$1,200 and place it to the credit of the fire and water fund.

Avenue Grade

The grade of Milwaukee avenue from East street to Clarence street as prepared by the city engineer was adopted, and the engineer ordered to prepare a grade for Highland avenue from Oak Hill avenue to Pearl street.

Chairman Rice of the highway committee took up the franchise matter. He stated that the committee had met the representatives of the two companies and heard their claims. They intended having a committee meeting Monday to consider the question but were unable to do so on account of one of the members being sick. He would therefore, ask for more time and that when the council adjourned it be until Monday evening, April 6. The motion was carried.

Sewerage Question

Chairman Mills of the sewerage committee reported that Captain Ruger was investigating the plans and would have a report ready in a short time.

Mayor Richardson announced the appointment of Wm. Ross as assistant street commissioner and on motion of Alderman McLean the appointment was confirmed.

Ald. McLean presented an order for several brick cross-walks on Center avenue, and for repairing Linn street with gravel from Pleasant street to Western avenue. He also presented an order that the waterworks company extend their mains on Palm street, from Ravine to West bluff streets. The street commissioner was ordered to serve notice on the Chicago and Northwestern.

Clean Streets

The last motion of the evening was one of Ald. McLean's that the macadamized streets be cleaned under the supervision of the street superintendent. This was carried. Other motions had been made to clean different streets and make them ready for the spring and summer and passed. Several brick walks had also been ordered placed.

A Morning Prayer.

The day returns and brings us the petty round of irritating concerns and duties. Help us to play the man, help us to perform them with laughter and kind faces. Let cheerfulness abound with industry, give us to go blithely on our business all this day, bring us to our resting beds weary and content and undisturbed, and grant us in the end, the gift of sleep.—Robert Louis Stevenson.

THEY ATTENDED LABOR MEETING

Joseph Delaney and John Johnson Were at the Session at the Auditorium.

Joseph Delaney and John Johnson returned Monday morning from a trip to Chicago and Milwaukee. In Chicago they attended the monster social gathering, held in the auditorium on Thursday evening, at which addresses were made by Father McGrady, "Mother" Jones and Thomas H. Morgan, who addressed the last Labor Day celebration in this city.

From Chicago the gentlemen went to Milwaukee where they were in consultation with the Central committee of the Social Democratic party of the state. In Chicago they made final plans with Seymour Steadman, who is to talk here Saturday evening, for his appearance.

JUSTICE COURT SOLVES PROBLEM

It Has a Complicated Case Brought Up for Settlement as to Rent.

Although judgment of restitution was nearly twenty days ago given by Justice Reeder against C. J. Heck, who has been living in a house owned by Mrs. Elizabeth Campbell, at 305 South Main street, he delayed complying with the command of the court, and Monday morning he was again in the same court, this time on an action for payment of rent on that same house, for a period of three and one-half months.

Although Heck has now left the house, he still holds the keys and refuses to restore them. A man named Williams desires to move into the house, and so today another set of locks are being put on the house, and the old removed so that the possession of the keys will not enable Heck to obtain entrance.

C. E. Jenkins and A. H. Klenow were out near Emerald Grove Sunday after geese and succeeded in getting two nice big fat ones, out of a bunch that came to their decoys.

MANY CURES IN JANESVILLE

The Peoples Drug Co. Report Good Work Done by Hyomel in Curing Catarrh.

It is seldom that a remedy has made so many cures in so short a time, as Hyomel, in curing cases of catarrh in Janesville.

The Peoples Drug Co. have so much faith in the powers of Hyomel to cure catarrh that at the very start they sold the remedy under their personal guarantee to refund the money in case it did not give satisfaction. As yet, they have but two customers who asked them to refund the price, while scores have told of the remarkable cures accomplished by this medicine.

Hyomel cures catarrh by a new principle, by breathing balsamic air, not by pills, drugs or nauseating liquids. It is the only positive cure ever discovered for this disease and it is also the pleasantest method of treatment.

The outfit consists of an inhaler, a medicine dropper and a bottle of Hyomel, the total cost being \$100. The inhaler will last a lifetime, while for treatment of catarrh, a bottle of Hyomel is sufficient for more than a month's use. Simply drop a little in to the inhaler and then breathe it for a few minutes four or five times a day. The air filled with a balsamic healing of Hyomel enters into the air passages and lungs, killing the disease germs, soothing the irritated membranes and effecting a permanent cure.

If a cure is not gained, ask the Peoples Drug Co. to return your money and they will do so without question.

No fairer way of selling a medicine was ever adopted by anyone. You ought to begin the use of Hyomel today on this plan.

A Layman's Lenten Sermon.

Thirty-first day of lent. St. Luke XII 2v.—For there is nothing covered that shall not be revealed, neither hid that shall not be known. Christ said these words to his disciples. He told them as a warning against any secretive methods which they might think were necessary or which, should they follow the custom of the past, they would indulge in.

How true is that statement. Nothing covered that shall not be revealed. We are having the daily illustration of this fact in the awful murder trial that is going on in Buffalo at the present time. A guilty woman and her unholy love for a friend of her husband are all common property of the general public, yet they thought themselves secure in their secrecy.

The truth may take a long time to come to the surface but sooner or later it is known, and when it is, the guilty must suffer. We read daily of old crimes finding the guilty one out even after a lapse of years. We are daily brought face to face with

the past and things we thought secure within our own breast and hidden deep down beyond the ken of all living men.

Christ spoke to an untutored people. He told them facts that educated them and which while the truths in his day and age are still truths and are among the fundamental principles of society of today.

A man can live without many things but he cannot live without religion and be happy. He must worship some deity or other and whether he does it in secret or in public, his mind surely reverts to some hidden power whose influence he cannot explain.

Christ came upon this earth to teach these men how to worship. How to pray, and how to be so good that they might inherit the kingdom of heaven. Each day a lesson is brought out to be solved and if the proper care, the proper diligence is taken, this question and any others which may be brought up can be solved through Christ's teachings.

INSPECT VUDOR SHADE FACTORY

CHIEF KLEIN AND FIRE POLICE VISIT NEW FACTORY.

CONCERNING FIRE PROTECTION

Every Precaution Has Been Taken To Avoid Any Chance of a Blaze.

Chief Klein and several members of the fire police accepted an invitation upon the Hough Shade corporation and visited the factory this morning for the purpose of going over the plant and familiarizing themselves with the building and its arrangements for fire protection.

Went Through Building The party was shown through the building by Mr. Hough and all the precautions taken by the company to prevent a fire explained to them. The corporation has 250 feet of two inch hose connected with the water service ready for instant use in case of a blaze and has all the dry kilns and other rooms where heat is used shut off from the main building by fire-proof walls and doors.

Greatest Danger The greatest danger is in the staining room where the strips for the screens are prepared. This room is a part of the main building and shut off from it by board walls. Large quantities of benzine paint are used in this room and should a fire once start in it, the main building would surely be burned. However, the management takes every precaution to prevent this and a fire is not likely to occur unless by accident.

A Busy Place The manufacturing industries in Spring Brook are growing so fast that the city will soon have to establish a fire station for that portion of the town.

TWENTY YEARS IN BUSINESS

Nelson Brothers Started Here Just Twenty Years Ago Tomorrow. Twenty years ago tomorrow the well known livery and undertaking firm of Nelson Bros. was formed in this city. At that time the business was conducted at the corner of Court and Park streets. In 1897 fire destroyed their quarters, compelling them to move to the more spacious building that they now occupy on Court street. The business in every branch has in the past few years doubled. New hacks and one of the most costly funeral cars ever owned in Wisconsin have been added. In fact no expense has been spared to improve any and all departments. Mr. Nelson's friends are numbered in all portions of the county and they will join in wishing him success for many years to come.

FISH ADDS ANOTHER DRAY

Handsome and Costly Vehicle Placed Upon the Streets This Week. Constant increasing in business has resulted in another dray being added to the E. T. Fish line. The new vehicle made its appearance on the streets this week and was admired by all who chanced to see it. No expense was spared in its construction. Mr. Fish's idea being to press the new dray in the heaviest line of work. Its spacious floor space makes this style of dray most desirable for moving purposes. Competent workmen, who well understand the handling of household goods and furniture, are now in the employ of Mr. Fish. The addition of this new dray now gives the Fish company four drays in the local field.

BAD ACCIDENT John Berlinger, a young man employed on Fred Hampt's farm in the town of La Prairie, had a bad runaway this afternoon on the Emerald Grove road, near the Paul farm. NOTICE TO ADVERTISERS.

On and after April first, 1903, no contract will be made for business local. The rate for this class of advertising will be 10 cents per line for each and every issue of either Daily or Weekly. The Gazette adopts this policy for two reasons: First, To improve the news columns of the paper. The first consideration of any newspaper is the reader and the value to the advertiser depends entirely upon its popularity with the reading public. Business local frequently flood the composing room the last hour, before the paper goes to press, and news is sacrificed to meet the demands of this class of business. Second, The Daily Gazette is rapidly extending its circulation throughout the county, giving the Janesville merchant an opportunity to talk to the farmer as well as the city customer, six days in the week. This means faster machinery, and increased expense in producing a paper as well as increased value for advertising purposes. The Gazette has also adopted what is known as the space rate for display advertising, and prices have been placed within the reach of all advertisers. The paper has long enjoyed a liberal patronage from home merchants, and it is in position today to furnish better service than at any time in its history. GAZETTE PRINTING COMPANY.

COLLEGE TEAMS MAY MEET HERE

COACH HOLLISTER, OF BELOIT, TALKS BASE BALL GAME

AT THE WOODMEN'S PICNIC

Plan Is Looked Upon Favorably by Many of the Picnic Committee.

Coach Hollister of the Beloit college baseball team was in the city last evening to see if he could arrange for a baseball game between Beloit and Wisconsin at Woodmen's picnic day, June 4. The two clubs will play a series of four games before that time, two at Madison and two at Beloit and if it should happen to be a tie each team winning two games this would be the deciding contest.

Plans Favored Mr. Hollister and John L. Fisher met several officers of the picnic association and they were very much in favor of getting the two teams here on that day as an addition to the other attractions of the picnic. There may be a little hitch about getting these teams here on account of Secretary J. C. Klein making a partial agreement with Nicol of the Rockford team to let him have Athletic park on that day for a game between Rockford and Burlington. A committee from the picnic association has been appointed and will confer with Secretary Klein today in regard to their getting the park. Favor Second Game The Woodmen are in favor of letting the Beloit and Wisconsin teams have the grounds picnic day as they are much more of a drawing card than Rockford and Burlington.

LODGE MEETINGS TONIGHT Janesville City Lodge No. 80, I. O. O. F. at West Side Odd Fellows hall.

Put a Cross After Each Name: Several prominent lawyers of this city have ventured an opinion that at the coming election the only safe thing to do when voting the citizens' ticket, under the head of individual nominations, was to put a cross after each name. They have examined the law carefully and while they say that in case of a contest they think there would be no doubt but that its count would be governed by the question of intent on the part of the voter the safe way to do is to put a cross after each name.

BEET FACTORY IN TWO YEARS

JANESVILLE PLANT ESTABLISHED FOR THE CROP OF 1905.

THAT IS PRESENT OUTLOOK

Farmers Would Have to Sign Contracts for Five Years, to Insure Its Erection.

If a beet sugar factory is completed and in operation in this city for the 1905 crop, it will be all that can be expected. This is the opinion of Walter Helms, expressed after a recent consultation at Milwaukee with President Wagner of the Wisconsin Sugar company. That a factory can be secured by that time, there is little, if any, doubt, although it may be necessary to go outside the county to fill the necessary number of contracts.

Talked with Wagner In his talk with Mr. Wagner Mr. Helms went over the entire situation very carefully. It was learned that when next season's contracts are filled it will be necessary to write them for four years,—that is, for the coming season, and also for the first three years that the factory would be in operation. An Extensive Plant Mr. Wagner does not want to build until the contracts have been made, but when he does build he wishes to put up a plant costing an aggregate close to a million dollars or over. He is convinced from the success of the beet crop here, the enthusiasm shown this year, the railroad connections, and the general situation that a factory of that size can be kept busy.

Four-Year Contracts As the situation now stands Mr. Helms believes that canvassing should begin next fall. At that time contracts should be written for 1904, and also for the years of 1905-07. He does not believe that will be appreciably more difficult than to write them for a single year. The task of securing an acreage of four thousand acres should be completed in time to allow first steps to be taken toward constructing the factory by about this time next year. Mr. Wagner wishes to spend nearly two years in the construction of the factory.

A WAY OPEN.
Many A Janesville Reader Knows It Well
There is a way open to convince the greatest skeptic. Scores of Janesville people have made it possible. The public statement of their experience is proof of the like of which has never been produced before in Janesville. Read this case of it given by a citizen:
Mr. John Setson, of the Hotel Myers day clerk, says: "A physician pronounced my trouble kidney complaint. If the severe pain across the small of my back is any indication of the said complaint. I guess I had it. For two years I suffered with attacks sometimes violent, sometimes a dull grinding ache, which robbed me of considerable energy. I used in addition to doctor's prescriptions several preparations said to be sure cures for kidney complaint, but until I procured Doan's Kidney Pills at the People's Drug Co's. drug store, I received little if any permanent relief. I took a thorough course of treatment prescribed by Doan's Kidney Pills and it cured me. Up to date I have not noticed any recurrence of my old trouble."

Contracts—Public Policy.
Where plaintiff contracted with defendants to procure legislative by the United States congress, for the sole purpose of depreciating the market value of the securities of a certain corporation, with a provision that any profit arising from speculation in such securities by selling them short and covering at an anticipated decline should be divided between the parties, such contract is void as against public policy and cannot be enforced. 66 Northeastern Rep. New York, Judge Warner) 103.
Street Railways—Injury to Passengers.

Where an old and infirm passenger was thrown down by the premature starting of a street car, and in the fall caught hold of the running board of the car and was dragged a considerable distance, his act in so doing, having been under an impulse created by a sudden danger, did not constitute contributory negligence on his part, preventing him from covering damages for his injuries. 66 Northeastern Rep. 156.

Funeral Expenses—Undertakers.
Judge Deemer, in the recent Iowa case of *Foley vs. Brooks*, remarks: "Our observation has led us to believe that the Catholic denomination requires no more expensive funeral corteges for its members than any other. Surely, one may die in this faith without being troubled by visions of the undertaker plundering his estate. The idea of a man having an estate of less than \$5,000 should have a casket costing \$425, and that his estate should be burdened with funeral expenses of \$556, is little short of ridiculous."

Accident Insurance—Policy—Conditions.

A condition in an accident insurance policy that "this insurance does not cover accident or death resulting while walking on a railway bridge, roadbed, or location violating laws or rules of a corporation," does not imply to an accident occurring while the insured was carefully crossing a railroad track at a point well recognized as a thoroughfare to and from the depot. 93 Northwestern Rep. (Iowa, Judge Bishop) 361.

Contracts With Attorney—Validity.
A contract between an attorney at law and one who is not such an attorney, by which the latter agrees to procure the employment of third persons for the prosecution of suits by the attorney in courts of record, and also to assist in looking after and procuring witnesses whose testimony to be used in the cases, in consideration of a share of the fees which the attorney shall receive for his services, is against public policy and void. 93 Northwestern Rep. (Nebraska, Judge Oldham) 389.

City Ordinances—Closing of Stores.
In the case of *State vs. Ray*, it was held that an ordinance providing that it shall be unlawful for bar-rooms, groceries, drygoods stores, or other places where merchandise is bought or sold (except drug stores for the sale of drugs and medicines only) to keep open later than half past seven o'clock p. m., except Saturdays and prescribing a fine for its violation, was invalid so far as it applied to drygoods stores and grocery stores, where it appeared that the corporate power to pass and enforce such an ordinance was without legislative authority to do so, except the fact that it was a chartered municipality. 42 Southeastern Rep. (North Carolina) 960.

Negligence—Municipal Corporations—Pest House.
A city having, in violation of a statute, established a pest-house within one mile of the city limits, the disease of smallpox was communicated to a family living nearby. Plaintiff, guest of the family, contracted the disease while there, and brought suit against the city for damages therefor. Held, that such damages were the natural and proximate result of the violation of the statute of the city, and plaintiff could recover. 70 Southwestern Rep. (Kentucky) 662.

Sunday Laws—Work of Necessity.
Defendant was indicted under a statute for laboring at his trade or calling, namely, pumping oil from an oil well, on the Sabbath day—the same "not being a household or other work of necessity or charity." Held, that the burden is upon the commonwealth to prove that the work was not one of necessity. It was further held that the question as to whether the work were one of necessity depended upon whether permanent injury to the property would result if the pumping were stopped over Sunday. 43 Southeastern Rep. (West Virginia) 121.

Slave Marriages—Validity.
Where a slave marriage was abandoned in 1863 and a year later the husband intermarried with another slave, and the parties of this second marriage lived together as husband and wife until his death, in 1877, the children of the first marriage were illegitimate and took no estate by descent in lands which the father possessed at the time of his death. 33 Southern Rep. (Alabama, Judge Tyson) 543.

Personal Injuries—Employee and Family.
In an action by an employee to recover damages for personal injuries, it is not competent for him to testify what family he has, since the damages allowed are for the injuries inflicted upon him, and not for the family. Evidence of the size of the family, and its dependent condition, is calculated to unduly enhance the damages, and to influence the jury to give damages beyond what is a compensation for the injury received. 33 Southern Rep. (Florida, Judge Shackelford) 513.

Ordinances Disciplining Passengers.
A municipal ordinance forbidding, under penalty, passengers to get on or off a moving train without authority of those in charge, is held, in *Wice vs. Chicago, & Ry. Co.*, to be void for unreasonableness and op-

pression. 63 Northeastern Rep. 1013.
Special Tax—Whiskey Furnished Patients.

A hospital was maintained and used for the purpose of treating persons addicted to the use of intoxicating liquors. In the treatment whiskey was mixed with the other medicinal properties, and as so combined was used as a treatment administered to persons so addicted to the use of intoxicants. Under a ruling of the revenue department it is held that the hospital is not liable to a special tax as a retail liquor dealer. 6 Treasury Decisions, No. 12.

PURE BLOOD

Necessary to Life.
Vinol Makes it.

POOR BLOOD CAUSES ERUPTIONS AND WEAKNESS.

Vinol Makes Pure, Rich, Red Blood.

BECAUSE WE KNOW THIS
WE GUARANTEE ITS ACTION.

Impoverished blood is a sure sign of internal disorders. We see every day too many people whose faces plainly show that there is something radically wrong.

We want all of our fellow-citizens to know of our splendid blood purifier and blood maker.

We refer to Vinol.

Vinol, as we have before stated, is a purely scientific preparation.

Vinol owes its virtue to the fact that it contains in a highly concentrated state the active curative principles, taken from the livers of live cods—the same elements that formerly were found in cod-liver oil, and which made it famous.

Vinol does not contain the grease or fat that characterized cod-liver oil and made it in many cases worthless.

Vinol acts upon every one of the great vital organs, and by invigorating and giving them strength, enables them to properly perform their functions.

Vinol's effect on the stomach is marvelous. It tones up this, the greatest of the organs of the body, and enables it to obtain from the food which is taken into it the necessary elements to create flesh and muscle tissue, bone structure and pure, rich, red blood.

We are in receipt of a letter from a Salvation Army woman which reads as follows:

"I took Vinol after a bad attack of grippe, and so much good did it do me that I persuaded my sister to take it. She was all tired out. Had no appetite and her blood was very poor. It did her as much good as it did me." BETSY HARKENSHAW, 719 River St., Fall River, Mass.

Won't you please come in and see us? We are always glad to extol the merits of Vinol.

We will give you back your money if you don't find Vinol will do all we claim it will. Could any one do more for you?

COUNT RESENTS DEWEY'S WORDS COULD SMASH WHOLE OUTFIT

Kaiser's First Squadron Declared to Be Superior to American Navy, Which is Designated a Heterogeneous Assemblage of Ancient Vessels.

Berlin, March 31.—Despite the fact that the Kaiser and the officials of the German foreign office have expressed their satisfaction with Admiral Dewey's explanation to President Roosevelt of his remarks on the German navy, the papers continue to print scathing criticisms of the Admiral. A sensational attack on the United States navy by Count von Reventlow, one of the foremost naval experts in Germany, was published in the Tagblatt.

Could Smash Dewey.

The Count prefaces his criticism with the declaration that the German navy "could smash Dewey's heterogeneous assemblage which has not a single modern armored cruiser." Germany's first squadron, he says, is homogeneous and always ready for instant service, while the American navy is a disorganized, disordered array of ancient vessels.

The maneuvers of the United States navy the Count regards as "generally childish," and as "always resulting in defeats of the hostile fleets, the naval commanders, therefore, gaining large newspaper glory."

Poor Opinion of Gunners.

Count von Reventlow's article is also characterized by a fierce attack on the marksmanship of the American gunners, that of the West Indian fleet being called especially poor. The Count calls the morale of the American navy extremely low, "as indicated by the numerous desertions." The navy, he says further, is woefully deficient in the number of its officers, especially in officers of more than ordinary ability, and he declares his belief that the United States will some day have a fine navy fleet, but she has not one yet.
